Equity would have been higher by ₹2040.26 lacs (upto previous Balance Sheet date ₹1942.81 lacs). A similar qualification had been given in the previous year's Auditor's Report.

5. As per Ind AS 109 "Financial Instruments", the Company has not measured Non-Current Borrowing of ₹ 5524.00 lacs (P.Y. ₹4766.00 lacs) initially at fair value. Had the Company fair valued the same; Interest Income, Finance Cost & Non-current Borrowings would have been higher and Other Current Finance Liabilities would have been lower by ₹323.95 lacs (Previous year ₹263.09 lacs). However there is no effect in Statement of Profit & Loss for the year as well as Debit balance of Other Equity (Refer Note no. 13.5, 22.1 & 27.4). A similar qualification had been given in the previous year's Auditor's Report.
6. Except for the above mentioned qualifications at para 3 to 5, these financial statements are prepared and presented in accordance with all the applicable and effective Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended even though the same has been referred as complied in Note-1 "Statement of Compliance" in Significant Accounting Policy in Notes forming part of Financial Statements.

Material uncertainty related to Going Concern

7. We draw attention to Note 42 of the standalone financial statements disclosing the material uncertainties that may affect the company from being able to continue as a going concern which are as under.
 - a. BIFR had declared the company as a sick company and after abatement of BIFR, Scheme of Compromise, Arrangement and Amalgamation u/s 230-232 of the Companies Act, 2013 is under process of approvals from concerned authorities.
 - b. The Company's net worth is fully eroded and has a negative net worth of ₹ 5480.38 Lacs (Previous year ₹ 4860.62 Lacs). The company has neither the intention to liquidate nor the intention to cease its operation nor is compelled to do so. The financial statements have, therefore, been prepared on going concern basis. Our opinion is not qualified in respect of this matter.

Emphasis of Matter

8. As described in Note 16.3 to the Standalone Financial Statement,, as per Ind AS 109 "Financial Instruments", the company has not recognised interest on financial liabilities on effective interest method. The company had assigned secured debts. The assignee had issued notice dated 24.04.2017 to the company for recalling original principal loan amounting to ₹5186 Lacs along with Interest amounting to ₹6436.17 Lacs accrued upto 31.03.2017 as well as interest upto date of payment.

On 25.08.2020 both the parties jointly appointed Arbitrator to adjudicate the dispute. The Company had paid an amount of ₹700 Lacs as per the Interim Order of the arbitrator during the F.Y. 2020-21. As per the final order of the arbitrator, the company has paid a further sum of ₹410 Lacs to the assignee during the year under audit. The sum paid during the year has been shown as exceptional items in the statement of Profit and Loss. The liability and assets in respect of the same as appearing in the financial statement as at 31st March 2021 have been netted off during the year under audit. The company is in the process of receipt of "No Due" Certificate from the assignee, in respect of full & final settlement of the dues.

Our opinion is not qualified in respect of this matter

9. As described in Note 44 to the Standalone Financial Statement, the extent to which the COVID-19 pandemic will impact the company's operations and financial performance is dependent on future developments, which are highly uncertain.

Our opinion is not modified in respect of the above matters.

Key Audit Matters

10. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit, of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion, on these matters.
11. We have determined that there are no key audit matters to be communicated in our report.

Information other than the Financial Statements and Auditor's Report thereon

12. The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and as may be legally advised.

Responsibilities of Management for the Financial Statements

13. The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, (changes in equity) and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under Section 133 of the Act read with the Companies (Indian Accounting Standard) Rules 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.
14. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
15. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

16. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
17. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
18. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
19. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and Other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
20. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore

the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annexure "B" to the Independent Auditors' Report

Referred to in paragraph 22 (h) of "Report on Other Legal and Regulatory Requirements" of our Report of even date to the Members of MODERN DENIM LIMITED for the year ended 31st March, 2022.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of MODERN DENIM LIMITED as of 31st March 2022, in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by Institute of Chartered Accountants of India ("ICAI") and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone Financial Statement, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Financial Statement for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Financial Statement in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Standalone Financial Statement.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes forming part of Financial Statements:
CORPORATE INFORMATION

Modern Denim Limited (the Company) is a public limited company incorporated in India under the provisions of Companies Act, 1956 (the Act) having its registered office at Abu Road, Rajasthan, India. The Company is primarily engaged in the business of manufacturing denim fabric.

Note no. 1: SIGNIFICANT ACCOUNTING POLICIES
(a) Statement of compliance

These financial statements are prepared and presented in accordance with the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 and subsequent amendments thereto notified under section 133 of the Companies Act, 2013 (to the extent applicable).

(b) Basis of preparation

- (i) The Financial Statements are prepared on accrual basis under the historical cost convention except certain financial assets and liabilities (including derivatives instruments) that are measured at fair value. The methods used to measure fair values are discussed in notes to financial statements.
- (ii) The preparation of financial statements requires judgments, estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known/materialized. Major estimates are discussed in Note No. 1A.

(c) Functional and presentation currency

These financial statements are presented in Indian Rupees, which is the functional currency of the company and the currency of the primary economic environment in which the Company operates.

(d) Classification of assets and liabilities into current/non-current

The Company has ascertained its operating cycle as twelve months for the purpose of Current / Non-Current classification of its Assets and Liabilities.

For the purpose of Balance Sheet, an asset is classified as current if:

- (i) It is expected to be realised, or intended to be sold or consumed, in the normal operating cycle;
- (ii) It is held primarily for the purpose of trading; or
- (iii) It is expected to realise the asset within twelve months after the reporting period; or
- (iv) The asset is a cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

Similarly, a liability is classified as current if:

- (i) It is expected to be settled in the normal operating cycle; or
- (ii) It is held primarily for the purpose of trading; or
- (iii) It is due to be settled within twelve months after the reporting period; or
- (iv) The Company does not have an unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current assets/liabilities.

(e) Property, plant & equipment (PPE)

Property, plant and equipment are stated at acquisition or construction cost less accumulated depreciation and impairment loss. Cost comprises the purchase price and any attributable cost of bringing the asset to its location and working condition for its intended use, including relevant borrowing costs and any expected costs of decommissioning.

If significant parts of an item of PPE have different useful lives, then they are accounted for as separate items (major components) of PPE.

The cost of an item of PPE is recognised as an asset if, and only if, it is probable that the economic benefits associated with the item will flow to the Company in future periods and the cost of the item can be measured reliably. Expenditure incurred after the PPE have been put into operations, such as repairs and maintenance expenses are charged to the Statement of Profit and Loss during the period in which they are incurred.

Items such as spare parts, standby equipment and servicing equipment are recognised as PPE when it is held for use in the production or supply of goods or services, or for administrative purpose, and are expected to be used for more than one year, otherwise such items are classified as inventory.

An item of PPE is de-recognised upon disposal or when no future economic benefits are expected to arise from the continued use of the assets. Any gain or loss arising on the disposal or retirement of an item of PPE, is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss.

On transition to Ind AS, the company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1 April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

(f) Expenditure during construction period

Expenditure, net of income earned, during construction (including financing cost related to borrowed funds for construction or acquisition of qualifying PPE) period is included under capital work-in-progress, and the same is allocated to the respective PPE on the completion of construction. Advances given towards acquisition or construction of PPE outstanding at each reporting date are disclosed as Capital Advances under "Other Non Current Assets"

Expenditure incurred after the PPE have been put into operations is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

The cost of the day-to-day servicing of Property, plant and equipment such as repairs & maintenance expenses are charged to profit and loss during the period in which they are incurred.

(g) Depreciation

Depreciation is the systematic allocation of the depreciable amount of PPE over its useful life and is provided on a straight-line basis over the useful lives as prescribed in Schedule II to the Act or as per technical assessment.

Depreciable amount for PPE is the cost of PPE less its estimated

residual value. The useful life of PPE is the period over which PPE is expected to be available for use by the Company or the number of production or similar units expected to be obtained from the asset by the Company. Details of assets with useful life is as under:

S. No.	Nature	Useful life (Years)
1.	Land free hold	-
2.	Buildings	30
3.	Roads	10
4.	Plant & Machinery	15
5.	Furniture & Fixtures	10
6.	Office Equipment	5
7.	Computers	3
8.	Vehicle	8

Depreciation on additions is provided on a pro-rata basis from the month of installation or acquisition and in case of Projects from the date of commencement of commercial production.

Depreciation on deductions/disposals is provided on a pro-rata basis up to the month of deduction/disposal.

(h) Intangible assets and amortization

Intangible Assets are stated at cost of acquisition net of recoverable taxes less accumulated amortization. All costs, including financing costs till commencement of commercial production, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the intangible assets are capitalized.

Intangible assets are amortised on a straight line basis over their estimated useful lives. A rebuttable presumption that the useful life of an intangible asset will not exceed ten years from the date when the asset is available for use is considered by the management. The amortization period and the amortization method are reviewed at least at each reporting date. If the expected useful life of the asset is significantly different from previous estimates, the amortization period is changed accordingly.

The gain or loss arising on the disposal or retirement of an intangible asset is determined as the difference between net disposal proceeds and the carrying amount of the asset and is recognised as income or expenses in the Statement of Profit and Loss in the year or disposal.

Depreciation on intangible assets is provided on straight-line method, equivalent to cost of assets over a period of 10 years time.

On transition to Ind As, the company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1 April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

(i) Borrowing Costs

Interest and other costs that the Company incurs in connection with the borrowing of funds are identified as borrowing costs. The Company capitalises borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which it is incurred.

A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use. The Company identifies the borrowings into specific borrowings and general borrowings. Specific borrowings are borrowings that are specifically taken for the purpose of obtaining a qualifying asset. General

borrowings include all other borrowings except the amount outstanding as on the balance sheet date of specific borrowings. Borrowing cost incurred actually on specific borrowings are capitalised to the cost of the qualifying asset. For general borrowings, the Company determines the amount of borrowing costs eligible for capitalisation by applying a capitalisation rate to the expenditures on the qualifying asset based on the weighted average of the borrowing costs applicable to general borrowings. The capitalisation on borrowing costs commences when the Company incurs expenditure for the asset, incurs borrowing cost and undertakes activities that are necessary to prepare the asset for its intended use or sale. The capitalisation of borrowing costs is suspended during extended periods in which active development of a qualifying asset is suspended. The capitalisation of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete.

(j) Inventories

Inventories are valued at the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and selling expenses. Cost in respect of raw material and store & spares parts are computed on FIFO basis. Cost in respect of stock of Finished goods and Work in progress are computed on weighted average basis method. Stock of Finished goods and Work in progress includes cost of conversion and other costs incurred in acquiring the inventory and bringing them to their present location and condition.

Waste is valued at estimated net realizable value.

(k) Cash and cash equivalent

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the company's cash management.

(l) Provisions, contingent liabilities and contingent assets

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources, that can be reliably estimated, will be required to settle such an obligation.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognised in the Statement of Profit and Loss as a finance cost. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

Claims against the Company where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Contingent assets are not recognised in financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognised.

(m) Foreign currency transactions

In preparing the financial statements of the Company, transactions in foreign currencies, other than the Company's functional currency are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary assets and liabilities denominated in foreign currencies are translated at the rate prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in the statement of profit and loss in the period in which these arise.

(n) Revenue Recognition

Revenue from Contacts with Customers

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the amount can be reliably measured.

Sales are recognized when the significant risks and rewards of ownership of the goods have passed to the buyer, which generally coincides with dispatch. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable excluding GST, net of returns and allowances, trade discounts and volume rebates.

Revenue is recognized on satisfaction of performance obligation upon transfer of control of promised goods or services to customers in an amount that reflects the consideration the division expects to receive in exchange for those goods or services.

The division satisfies a performance obligation and recognizes revenue over time, if one of the following criteria is met:

1. The customer simultaneously receives and consumes the benefits provided by the division's performance; or
2. The division's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
3. The division's performance does not create an asset with an alternative use to the division and an entity has an enforceable right to payment for performance completed to date.

(o) Other operating revenues / other income

- (i) For all financial instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR), which is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial instrument to the gross carrying amount of the financial asset.
- (ii) Export Incentives are recognized in the Statement of Profit & Loss when the right to receive credit as per the terms of the scheme is established in respect of the exports made.
- (iii) Other income is recognized on accrual basis except when realization of such income is uncertain.
- (iv) Dividend income is accounted for when the right to receive the income is established.

(p) Government grants & subsidies

Grants from the government are measured at amounts receivable from the government which are non-refundable and are recognized as income when there is a reasonable assurance that the Company will comply with all necessary conditions attached to them.

Income from the above grants are presented under Revenue from Operations.

(q) Employee Benefits

Short term employee benefits

Short-term employee benefit obligations are recognized as an expense on accrual basis.

Defined contribution plans

Defined contribution plans are those plans in which an entity pays fixed contribution into separate entities and will have no legal or constructive obligation to pay further amounts. Provident fund and employee state insurance are defined contribution plans in which company pays a fixed contribution and will have no further obligation.

Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan.

Company pays Gratuity as per provisions of the Payment of Gratuity Act, 1972. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefits that employees have earned in return for their services in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a liability to the company, the present value of liability is recognized as provision for employee benefit. Any actuarial gains or losses are recognized in Other Comprehensive Income in the period in which they arise.

Other long-term employee benefits

Benefits under the Company's leave encashment constitute other long term employee benefits.

The Company's net obligation in respect of leave encashment is the amount of future benefits that employees have earned in return for their service in the current and prior periods, that benefit is discounted to determine its present value and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains or losses are recognized in profit and loss in the period in which they arise.

(r) Income taxes

Current Tax

Current Tax is determined on income for the year chargeable to tax in accordance on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Effective from 1st April, 2019, the Company has adopted Appendix C of Ind AS-12 and has provided for the tax liability based on the significant judgment that the taxation authority will not accept the tax treatment. However, adoption of the same does not have any impact on the Balance Sheet, Statement of Change in Equity and Statement of Profit & Loss Account.

Deferred tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Financial Statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilized.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. Accordingly, MAT is recognised as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with asset will be realised.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

(s) Leases

Effective from 1st April, 2019, the Company has adopted Ind AS-116 "Lease" retrospectively with the cumulative effect of applying this standard recognise at the date initial application.

Due to the same, the associated right-of-use assets are measured either at the carrying amounts as if the Standard has been applied since the commencement date or at the amount equal to the lease liability are included in and presented as "Right to use Asset" and "Other financial liabilities" respectively on the financial statements.

The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. Lease term includes periods of an option to extend the lease if the lessee is reasonably certain to exercise that option and an option to terminate the lease if the lessee is reasonably certain not to exercise that option. Short-term leases for the underlying asset is of low value apply exemption rules of the standards, and recognize the lease payments associated with those leases as an expense mainly on straight-line basis over the lease term.

The cumulative effects due to the application of this standard were recognized on the commencement date of adoption in accordance with the transitional arrangements, the retrospective restatement of prior periods have not been applied.

Leases are classified as finance leases, when the terms of the lease, transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as Operating Leases.

Operating Lease: Lease rentals are charged or recognised in the statement of profit and loss on a straight-line basis over the lease term.

Finance Lease: Assets held under finance leases are recognised as assets of the division at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease obligation. Finance charges are charged to the Statement of Profit and Loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the division's policy on borrowing costs.

(t) Impairment of non-financial assets

At the end of each reporting period, the Company reviews the carrying amounts of non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in Statement of Profit and Loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in the Statement of Profit and Loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

(u) Segment reporting

Identification of Segments

Operating Segments are identified based on monitoring of operating results by the chief operating decision maker (CODM) separately for the purpose of making decision about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss of the Company.

Operating Segments are identified based on the nature of products and services, the different risks and returns and the internal business reporting system.

Segment Policies

The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

(v) Earnings Per Share (EPS)

The basic EPS is computed by dividing the profit after tax for the year attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted EPS, profit after tax for the year attributable to the equity shareholders and the weighted average number of equity shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

(w) Fair value Measurement

The company measures financial instruments, such as investments and derivatives at fair value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumptions that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

A fair value measurement of a non financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The company uses valuation technique that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

Fair values are categorized into different levels in the hierarchy as under:

- Level 1 : Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 : Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 : Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

(x) Financial instruments

Financial assets and financial liabilities are recognized when a Company becomes a party to the contractual provisions of the instruments.

Initial Recognition:

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss and ancillary costs related to borrowings) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in statement of profit and loss.

Classification and Subsequent Measurement: Financial assets

The Company classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income ("FVOCI") or fair value through profit or loss ("FVTPL") on the basis of following:

- the entity's business model for managing the financial assets and
- the contractual cash flow characteristics of the financial asset.

Amortised Cost:

A financial asset shall be classified and measured at amortised cost if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

In case of financial assets at amortised costs, interest income, foreign exchange gain or loss and impairment are recognized in Statement of profit and loss.

Fair Value through OCI:

A financial asset shall be classified and measured at fair value through OCI if both of the following conditions are met:

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Where the Company has elected to present the fair value gain on equity instruments in other comprehensive income, there is no subsequent classification of fair value gain or losses to profit and loss account. Dividend from such instruments is recognized in profit and loss account as other income where right to receive is established.

Fair Value through Profit or Loss:

A financial asset shall be classified and measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through OCI.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification and Subsequent Measurement:**Financial liabilities:**

Financial liabilities are classified as either financial liabilities at FVTPL or 'other financial liabilities'

Financial Liabilities at FVTPL:

Financial liabilities are classified as at FVTPL when the financial liability is held for trading or are designated upon initial recognition as FVTPL:

Gains or Losses on liabilities held for trading are recognised in the Statement of Profit and Loss.

Other Financial Liabilities:

Other financial liabilities (including borrowings and trade and other payables) are subsequently measured at amortised cost using the effective interest method.

Impairment of financial assets:

The company assesses at each date of statement of financial position whether a financial assets or group of financial assets is impaired.

In accordance of Ind AS 109, the company applies expected credit loss (ECL) model for measurement and recognition of impairment loss.

In case of trade receivables, the Company follows a simplified approach wherein an amount equal to lifetime ECL is measured and recognised as loss allowance. As a practical expedient, the company uses a provision matrix to determine impairment loss on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of trade receivables. ECL impairment loss allowances (or reversal) recognized during the period is recognized as an expense / income respectively in the statement of profit and loss. Provision for ECL is presented as deduction from carrying amount of trade receivables.

For all other financial assets, expected credit losses are measured at an amount equal to 12 month expected credit losses or at an amount equal to lifetime expected losses, if the credit risk on the financial asset has increased significantly since initial recognition.

Subsequently, if the credit quality of the financial asset improves such that there is no longer a significant increase in credit risk since initial recognition, the Company reverts to recognizing impairment loss allowance based on 12 month ECL.

Derecognition of financial assets:

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises associated liabilities.

On derecognition of a financial asset, other than investments classified as FVOCI, in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

The Company derecognizes financial liabilities when the Company's obligation are discharged, cancelled or have expired. The difference between the carrying amount of financial liability derecognized and consideration paid and payable is recognized in the statement of profit and loss.

On derecognition of equity investments classified as FVOCI, accumulated gains or loss recognised in OCI is transferred to retained earnings.

(y) Financial liabilities and equity instruments

• Classification as debt or equity

Debt and equity instruments issued by the Company are classified either as financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

• Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its

liabilities. Equity instruments issued by a Company are recognised at the proceeds received.

(z) Derivative financial instruments:

The Company enters into derivative financial instruments viz. foreign exchange forward contracts to manage foreign exchange risks. The Company does not hold derivative financial instruments for speculative purposes.

Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in statement of profit and loss immediately.

(aa) Derecognition of Financial Liabilities:

The Company de-recognises financial liabilities when and only when, the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability de-recognised and the consideration paid and payable is recognised in the statement of profit and loss.

Note no. 1A : Standards issued but not yet effective

The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standards) Amendment Rules, 2022 vide notification no. G.S.R 255(E) dated 23rd March 2022. Given below are the amendment made in brief and their possible impact on the financial statements of the company. The company will be apply the amendments from 1 April 2022 being the effective date of the amendments:

• Ind AS 101 – First-time adoption of Indian Accounting Standards:

The amendment removes the conflict between the requirements of paragraph D16(a) of Ind AS 101 which provides exemptions where a subsidiary adopts Ind AS later than its parent and the exemptions on cumulative translation differences. The amendment permits the subsidiary to measure cumulative translation differences at the carrying amount included in the parent's consolidated financial statements. Similar exemption is available to associate and joint venture that uses the exemption in paragraph D16(a) of Ind AS 101. Paragraph D16(a) of Ind AS 101 provides that the subsidiary can measure its assets and liabilities at the carrying amounts in parent's consolidated financial statements. The amendment is applicable for entities adopting Ind AS from 1 April 2022. As the company has already adopted Ind AS, there is no impact of this amendment on the company.

• Ind AS 103 – Business Combinations:

The amendments are made to enable change of reference to Conceptual Framework for Financial Reporting under Indian Accounting Standards issued by The Institute of Chartered Accountants of India and have no impact on the financial statements of the company. The amendments are applicable for business combinations having acquisition date on or after 1 April 2022.

• Ind AS 109 – Financial Instruments:

The amendments clarify that only fees paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf will be included in calculating the discounted present value of the cash flow under the new terms on modification of financial liability. The amendment is applicable for modification / exchange of financial liabilities on or after 1 April 2022. The amendment has no impact on the financial statements of the company.

- **Ind AS 16 – Property, Plant and Equipment:**

The amendment creates a carve-out from IAS 16. IAS 16 requires any sale proceeds and cost of samples produced when testing whether the asset is functioning properly to be recognised in profit or loss whereas the amendment clarifies that the same shall be deducted from the cost of the property, plant and equipment. No transition provisions have been specified and therefore, this amendment shall be applicable retrospectively. The company has been following the practice as clarified by the amendment and hence no impact on the financial statements of the company.

- **Ind AS 37 – Provisions, Contingent Liabilities and Contingent Assets:**

The paragraph clarifies what cost needs to be considered in the costs to fulfil a contract while determining whether the contract is onerous. Changes previous practice of considering only incremental costs in the costs to fulfil a contract for determination of onerous contract. Now apart from incremental costs, the costs to fulfil a contract includes an allocation of directly attributable costs. The amendments apply to unfulfilled onerous contracts as on 1 April 2022. As the company does not have any onerous contract, the said amendment has no impact on the financial statements of the company.

- **Ind AS 41 – Agriculture:**

The amendment removes taxation cash flows from paragraph 22 indicating tax cash flows must be included in the fair value less costs to sell. The amendment is applicable to fair value measurements on or after 1 April 2022. Ind AS 41 is not applicable to the company and hence has no impact on the financial statements of the company.

Note no. 1B : Significant accounting judgements, estimates and assumptions:

The preparation of the Company's financial statements requires

management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Estimates made in preparing Financial Statements:

(a) Useful life of Property, plant and equipment and intangible assets

The Company uses its technical expertise along with historical and industry trends for determining the economic life of an asset/component of an asset. The useful lives are reviewed by management periodically and revised, if appropriate. In case of a revision, the unamortized depreciable amount is charged over the remaining useful life of the assets.

(b) Post-employment benefit plans

Employees benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, the rate of salary increases and the inflation rate. The Company considers that the assumptions used to measure its obligations are appropriate and documented. However, any changes in these assumptions may have a material impact on the resulting calculations.

(c) Provisions and contingencies

The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Ind AS 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events requires best judgment by the management regarding the probability of exposure to potential loss. If circumstances change following unforeseeable developments, this likelihood could alter.
